Notice on Extension of Validity of Accreditation of Ground Water Professionals

As per the decisions taken in the 2nd meeting of the '*National Board of Accreditation for Ground Water Professionals*' held on 03.07.2025, the validity of accreditation for all Individuals and Institutions accredited either by RGNGTRI or by QCI-NABET-except those currently debarred, delisted, blacklisted, or put on hold are hereby granted a **one-time extension up to 31.03.2026**, or until the online accreditation portal being developed by QCI-NABET becomes fully functional, whichever is earlier.

NB :As per the policy decisions, henceforth future accreditations—both fresh and renewal—shall be conducted exclusively through the online portal currently under development by QCI-NABET. All Individuals and Institutions who were accredited without undergoing the written examination followed by an interview (i.e., Accreditation Rounds 1 and 2) will have to mandatorily apply fresh. This requirement will come into effect once the online portal becomes fully operational, irrespective of the validity of their existing accreditation.
